

Automatic Aerosol Can Necking Flanging Dome And Cone Seaming Combination Machine

Specification:

Model	GT3B68-F(N)+SS
Type	4H; 8H-8H
Capacity	100 - 200 cans/min
Range of Can Diameter	45-65 mm
Range of Can Height	110-320 mm
Power	5.5kw+5.5kw
Weight	3000kg+3800kg
Dimensions	3000*2000*1800mm

Machine Features:

- 1) Three stations: necking, flanging, dome seaming and cone seaming.
- 2) Double-knife lids separating system is used for dome and cone seaming stations.
- 3) Use inverter for variable speed control.
- 4) Full automatic control system, controlled by PLC and display interface.
- 5) Recyclable central lubricating system.
- 6) Fast can size changeover, easy installation.
